Trayhurn P Citations and 'impact factor' – the Holy Grail (Editorial). 1

Perewusnyk G, Huch R, Huch A & Breymann C Parenteral iron therapy in obstetrics: 8 years experience with iron–sucrose complex. 3

Newman RE, Bryden WL, Fleck E, Ashes JR, Buttemer WA, Storlien LH & Downing JA Dietary *n*-3 and *n*-6 fatty acids alter avian metabolism: metabolism and abdominal fat deposition. 11

Newman RE, Bryden WL, Fleck E, Ashes JR, Storlien LH & Downing JA Dietary *n*-3 and *n*-6 fatty acids alter avian metabolism: molecular-species composition of breast-muscle phospholipids. 19

Mitoulas LR, Kent JC, Cox DB, Owens RA, Sherriff JL & Hartmann PE Variation in fat, lactose and protein in human milk over 24 h and throughout the first year of lactation. 29

Nieto R, Miranda A, García MA & Aguilera JF The effect of dietary protein content and feeding level on the rate of protein deposition and energy utilization in growing Iberian pigs from 15 to 50 kg body weight. 39

Smith MW, Shenoy KB, Debnam ES, Dashwood MR, Churchill LJ & Srai SK Divalent metal inhibition of non-haem iron uptake across the rat duodenal brush border membrane. 51

Quiles JL, Huertas JR, Battino M, Ramírez-Tortosa MC, Cassinello M, Mataix J, Lopez-Frias M & Mañas M The intake of fried virgin olive or sunflower oils differentially induces oxidative stress in rat liver microsomes. 57

Kuvibidila SR, Velez M, Yu L, Warrier RP & Baliga BS Differences in iron requirements by concanavalin A-treated and anti-CD3-treated murine splenic lymphocytes. 67

Russi JP, Wallace RJ & Newbold CJ Influence of the pattern of peptide supply on microbial activity in the rumen simulating fermenter (RUSITEC). 73

James SM & Kyriazakis I The effect of consumption of foods that differ in energy density and/or sodium bicarbonate supplementation on subsequent diet selection in sheep. 81

Hu G, Pekkarinen H, Hänninen O, Tian H & Jin R Comparison of dietary and non-dietary risk factors in overweight and normal-weight Chinese adults. 91

Sanderson P, Gill JMR, Packard CJ, Sanders TAB, Vessby B & Williams CM UK Food Standards Agency *cis*-monounsaturated fatty acid workshop report. 99

Eaton-Evans J Artificial nutrition support in clinical practice (Book Review). 105

Mathers J Choosing your carbohydrates to prevent diabetes (Invited Commentary). 107

Lunn PG Growth retardation and stunting of children in developing countries (Invited Commentary). 109

Jacobs Jr DR, Pereira MA, Stumpf K, Pins JJ & Adlercreutz H Whole grain food intake elevates serum enterolactone. 111

Hurrell RF, Reddy MB, Burri J & Cook JD Phytate degradation determines the effect of industrial processing and home cooking on iron absorption from cereal-based foods. 117

Blundell JE, Cooling J & King NA Differences in postprandial responses to fat and carbohydrate loads in habitual high and low fat consumers (phenotypes). 125

Laing CJ & Fraser DR Changes with malnutrition in the concentration of plasma vitamin D binding protein in growing rats. 133

Goto R, Panter-Brick C, Northrop-Clewes CA, Manahdhar R & Tuladhar NR Poor intestinal permeability in mildly stunted Nepali children: associations with weaning practices and *Giardia lamblia* infection. 141

Oarada M, Nikawa T & Kurita N Effect of timing of food deprivation on host resistance to fungal infection in mice. 151

Durmic Z, Pethick DW, Mullan BP, Accioly JM, Schulze H & Hampson DJ Evaluation of large-intestinal parameters associated with dietary treatments designed to reduce the occurrence of swine dysentery. 159

Hillyer LM & Woodward B A comparison of the capacity of six cold-pressed plant oils to support development of acquired immune competence in the weanling mouse: superiority of low-linoleic-acid oils. 171

Nova E, Gómez-Martínez S, Morandé G & Marcos A Cytokine production by blood mononuclear cells from in-patients with anorexia nervosa. 183

Han X-T, Xie A-Y, Bi X-C, Liu S-J & Hu L-H Effects of high altitude and season on fasting heat production in the yak *Bos grunniens* or *Poephagus grunniens*. 189
Adebiyi A, Adaikan PG & Prasad RNV Papaya (*Carica papaya*) consumption is unsafe in pregnancy: fact or fable? Scientific evaluation of a common belief in some parts of Asia using a rat model. 199
Swartz AM, Evans MJ, King GA & Thompson DL Evaluation of a foot-to-foot bioelectrical impedance analyser in highly active, moderately active and less active young men. 205
Wolever TMS Low carbohydrate does not mean low glycaemic index! (Nutrition Discussion Forum). 211
Tremblay A, Dumesnil JG & Després J-P Diet, satiety and obesity treatment (Nutrition Discussion Forum). 213
Rumsby P Nitrate and man: toxic, harmless or beneficial? (Book Review). 215
Cummings J Handbook of dietary fiber (Book Review). 216
Lytle LA, Jacobs Jr DR, Perry CL & Klepp K-I Achieving physiological change in school-based intervention trials: what makes a preventive intervention successful? (Invited Commentary). 219
Lund E Olive oil phenolics: effects on DNA-oxidation and redox enzyme mRNA in prostate cells (Invited Commentary). 223
Quiles JL, Farquharson AJ, Simpson DK, Grant I & Wahle KWJ Olive oil phenolics: effects on DNA oxidation and redox enzyme mRNA in prostate cells. 225
Konings EJM, Troost FJ, Castenmiller JJM, Roomans HHS, van den Brandt PA & Saris WHM Intestinal absorption of different types of folate in healthy subjects with an ileostomy. 235
Noone EJ, Roche HM, Nugent AP & Gibney MJ The effect of dietary supplementation using isomeric blends of conjugated linoleic acid on lipid metabolism in healthy human subjects. 243
Guay F, Matte JJ, Girard CL, Palin M-F, Giguère A & Laforest J-P Effects of folic acid and vitamin B_{12} supplements on folate and homocysteine metabolism in pigs during early pregnancy. 253
White KLM, Chalmers DM, Martin IG, Everett SM, Neville PM, Naylor G, Sutcliffe AE, Dixon MF, Turner PC & Schorah CJ Dietary antioxidants and DNA damage in patients on long-term acid-suppression therapy: a randomized controlled study. 265
Schröder H, Marrugat J, Elosua R & Covas MI Tobacco and alcohol consumption: impact on other cardiovascular and cancer risk factors in a southern European Mediterranean population. 273
Lewis RM, Forhead AJ, Petry CJ, Ozanne SE & Hales CN Long-term programming of blood pressure by maternal dietary iron restriction in the rat. 283
Albers R, Bol M, Bleumink R, Willems A, Blonk C & Pieters R Effects of dietary lipids on immune function in a murine sensitisation model. 291
Wiedmer P, Ortmann S & Klaus S Energy metabolism of young rats after early postnatal overnutrition. 301
Franks PW, Wong M-Y, Luan J, Mitchell J, Hennings S & Wareham NJ Non-esterified fatty acid levels and physical inactivity: the relative importance of low habitual energy expenditure and cardio-respiratory fitness. 307
Manios Y, Moschandreas J, Hatzis C & Kafatos A Health and nutrition education in primary schools of Crete: changes in chronic disease risk factors following a 6-year intervention programme. 315
LaForgia J & Withers RT Measurement of total body water using ^2H dilution: impact of different calculations for determining body fat. 325
Larsen LO The role of *de novo* lipogenesis in development of obesity in man (Nutrition Discussion Forum). 331
Burrows M Exercise, nutrition, and the older woman: wellness for women over fifty (Book Review). 333
Dickerson JWT Fine wines and fish oils. The life of Hugh MacDonald Sinclair (Book Review). 333
Carpenter KLH Good COP, bad COP: an unsolved murder. Are dietary cholesterol oxidation products guilty of atherogenicity? (Invited Commentary). 335
Ando M, Tomoyori H & Imaizumi K Dietary cholesterol-oxidation products accumulate in serum and liver in apolipoprotein E-deficient mice, but do not accelerate atherosclerosis. 339
Mohanty I, Joshi S, Trivedi D, Srivastava S & Gupta SK Lycopene prevents sugar-induced morphological changes and modulates antioxidant status of human lens epithelial cells. 347
Burdge GC, Jones AE & Wootton SA Eicosapentaenoic and docosapentaenoic acids are the principal products of α-linolenic acid metabolism in young men. 355

Scholz-Ahrens KE, Açil Y & Schrezenmeir J Effect of oligofructose or dietary calcium on repeated calcium and phosphorus balances, bone mineralization and trabecular structure in ovariectomized rats. 365

Burdge GC, Dunn RL, Wootton SA & Jackson AA Effect of reduced dietary protein intake on hepatic and plasma essential fatty acid concentrations in the adult female rat: effect of pregnancy and consequences for accumulation of arachidonic and docosahexaenoic acids in fetal liver and brain. 379

Kay CD & Holub BJ The effect of wild blueberry (*Vaccinium angustifolium*) consumption on postprandial serum antioxidant status in human subjects. 389

Leung G, Benzie IFF, Cheung A, Tsao SW & Wong YC No effect of a high-fat diet on promotion of sex hormone-induced prostate and mammary carcinogenesis in the Noble rat model. 399

Burdge GC & Wootton SA Conversion of α-linolenic acid to eicosapentaenoic, docosapentaenoic and docosahexaenoic acids in young women. 411

Nagura T, Hachimura S, Hashiguchi M, Ueda Y, Kanno T, Kikuchi H, Sayama K & Kaminogawa S Suppressive effect of dietary raffinose on T-helper 2 cell-mediated immunity. 421

Koppes LLJ, Twisk JWR, Snel J & Kemper HCG Concurrent validity of alcohol consumption measurement in a 'healthy' population; quantity-frequency questionnaire *v.* dietary history interview. 427

Drummond S Food and nutritional supplements: their role in health and disease (Book Review). 435

Kyle R Poverty bites: food, health and poor families (Book Review). 435

Ford D Mechanistic explanations for the chemopreventive action of soyabean isoflavones: reducing the possibilities (Invited Commentary). 439

Dorea JG Selenium and breast-feeding. 443

Po LS, Wang TT, Chen Z-Y & Leung LK Genistein-induced apoptosis in MCF-7 cells involves changes in Bak and Bcl-x without evidence of anti-oestrogenic effects. 463

Petrie L, Duthie SJ, Rees WD & McConnell JML Serum concentrations of homocysteine are elevated during early pregnancy in rodent models of fetal programming. 471

de Graaf J, de Sauvage Nolting PRW, van Dam M, Belsey EM, Kastelein JJP, Pritchard PH & Stalenhoef AFH Consumption of tall oil-derived phytosterols in a chocolate matrix significantly decreases plasma total and low-density lipoprotein-cholesterol levels. 479

Morales J, Pérez JF, Martín-Orúe SM, Fondevila M & Gasa J Large bowel fermentation of maize or sorghum–acorn diets fed as a different source of carbohydrates to Landrace and Iberian pigs. 489

Campbell DI, Lunn PG & Elia M Age-related association of small intestinal mucosal enteropathy with nutritional status in rural Gambian children. 499

Islam SKN, Hossain KJ, Ahmed A & Ahsan M Nutritional status of drug addicts undergoing detoxification: prevalence of malnutrition and influence of illicit drugs and lifestyle. 507

Zimowska W, Girardeau JP, Kuryszko J, Bayle D, Rayssiguier Y & Mazur A Morphological and immune response alterations in the intestinal mucosa of the mouse after short periods on a low-magnesium diet. 515

Hopwood DE, Pethick DW & Hampson DJ Increasing the viscosity of the intestinal contents stimulates proliferation of enterotoxigenic *Escherichia coli* and *Brachyspira pilosicoli* in weaner pigs. 523

Beghin L, Michaud L, Guimber D, Vaksmann G, Turck D & Gottrand F Assessing sleeping energy expenditure in children using heart-rate monitoring calibrated against open-circuit indirect calorimetry: a pilot study. 533

Müller MJ, Grund A, Krause H, Siewers M, Bosy-Westphal A & Rieckert H Determinants of fat mass in prepubertal children. 545

McNeill G, Vyvyan J, Peace H, McKie L, Seymour G, Hendry J & MacPherson I Predictors of micronutrient status in men and women over 75 years old living in the community. 555

Ravaglia G, Forti P, Maioli F, Bianchi G, Sacchetti L, Talerico T, Nativio V, Mariani E & Macini P Plasma amino acid concentrations in healthy and cognitively impaired oldest-old individuals: associations with anthropometric parameters of body composition and functional disability. 563

Sanderson P, Finnegan YE, Williams CM, Calder PC, Burdge GC, Wootton SA, Griffin BA, Millward DJ, Pegge NC & Bemelmans WJE UK Food Standards Agency α-linolenic acid workshop report. 573

Wallace J Food safety for professionals (Book Review). 581
Mepham B Food politics (Book Review). 581
Hall N Introduction to nutrition and metabolism (Book Review). 582
Francis G, Kerem Z, Makkar HPS & Becker K The biological action of saponins in animal systems: a review. 587
Caseras A, Metón I, Vives C, Egea M, Fernández F, Baanante IV Nutritional regulation of glucose-6-phosphatase gene expression in liver of the gilthead sea bream (*Sparus aurata*). 607
Serafini M, Bugianesi R, Salucci M, Azzini E, Raguzzini A & Maiani G Effect of acute ingestion of fresh and stored lettuce (*Lactuca sativa*) on plasma total antioxidant capacity and antioxidant levels in human subjects. 615
Ostrowska E, Cross RF, Muralitharan M, Bauman DE & Dunshea FR Effects of dietary fat and conjugated linoleic acid on plasma metabolite concentrations and metabolic responses to homeostatic signals in pigs. 625
Robertson MD, Jackson KG, Fielding BA, Williams CM & Frayn KN Acute effects of meal fatty acid composition on insulin sensitivity in healthy post-menopausal women. 635
Buyse J, Janssens K, Van der Geyten S, Van As P, Decuypere E & Darras VM Pre- and postprandial changes in plasma hormone and metabolite levels and hepatic deiodinase activities in meal-fed broiler chickens. 641
Chamruspollert M, Pesti GM & Bakalli RI Dietary interrelationships among arginine, methionine, and lysine in young broiler chicks. 655
Black IL, Roche HM, Tully A-M & Gibney MJ Acute-on-chronic effects of fatty acids on intestinal triacylglycerol-rich lipoprotein metabolism. 661
Kjær TMR & Frøkiær H Modulation of ovomucoid-specific oral tolerance in mice fed plant extracts containing lectins. 671
McKillop DJ, Pentieva K, Daly D, McPartlin JM, Hughes J, Strain JJ, Scott JM & McNulty H The effect of different cooking methods on folate retention in various foods that are amongst the major contributors to folate intake in the UK diet. 681
Moinard C, Caldefie-Chezet F, Walrand S, Vasson M-P & Cynober L Evidence that glutamine modulates respiratory burst in stressed rat polymorphonuclear cells through its metabolism into arginine. 689
Wachira AM, Sinclair LA, Wilkinson RG, Enser M, Wood JD & Fisher AV Effects of dietary fat source and breed on the carcass composition, *n*-3 polyunsaturated fatty acid and conjugated linoleic acid content of sheep meat and adipose tissue. 697
Christensen DL, van Hall G & Hambraeus L Food and macronutrient intake of male adolescent Kalenjin runners in Kenya. 711
Bhargava A & Guthrie JF Unhealthy eating habits, physical exercise and macronutrient intakes are predictors of anthropometric indicators in the Women's Health Trial: Feasibility Study in Minority Populations. 719
Moore-Colyer MJS, Hyslop JJ, Longland AC & Cuddeford D The mobile bag technique as a method for determining the degradation of four botanically diverse fibrous feedstuffs in the small intestine and total digestive tract of ponies. 729
Livesey G Approaches to health via lowering of postprandial glycaemia (Nutrition Discussion Forum). 741
Short C Preface and acknowledgements. S1
Roberfroid M Foreword. S3
Shanahan F Probiotics and inflammatory bowel disease: from fads and fantasy to facts and future. S5
Edwards CA & Parrett AM Intestinal flora during the first months of life: new perspectives. S11
Laiho K, Hoppu U, Ouwehand AC, Salminen S & Isolauri E Probiotics: on-going research on atopic individuals. S19
McCartney AL Application of molecular biological methods for studying probiotics and the gut flora. S29
Fooks LJ & Gibson GR Probiotics as modulators of the gut flora. S39
Marteau P, Seksik P & Jian R Probiotics and intestinal health effects: a clinical perspective. S51
de Vrese M & Schrezenmeir J Probiotics and non-intestinal infectious conditions. S59
Madden JAJ & Hunter JO A review of the role of the gut microflora in irritable bowel syndrome and the effects of probiotics. S67
Gill CIR & Rowland IR Diet and cancer: assessing the risk. S73

Rafter J Lactic acid bacteria and cancer: mechanistic perspective. S89
Bomba A, Nemcová R, Gancarčíková S, Herich R, Guba P & Mudroňová D Improvement of the probiotic effect of micro-organisms by their combination with maltodextrins, fructo-oligosaccharides and polyunsaturated fatty acids. S95
Lee Y-K & Puong K-Y Competition for adhesion between probiotics and human gastrointestinal pathogens in the presence of carbohydrate. S101
Baccigalupi L, di Donato A, Naclerio G, Luongo D, Rossi M, Ricca E and de Felice M Characterization of food-isolated strains of *Lactobacillus fermentum* with potential probiotic activity (Abstracts of Communications). S109
Bielecka M, Biedrzycka E, Rotkiewicz Z, Rotkiewicz T, Otrocka I, Babińska I and Zduńczyk Z The influence of bifidobacteria on pathomorphological pattern and microflora of gastrointestinal tract in non-infected and *Salmonella*-administered rats (Abstracts of Communications). S109
Gill GA, Corfield AP, Millar MR and Russell G Investigation of mucin-degrading activity of bowel flora in preterm and full term infants (Abstracts of Communications). S110
Hamilton-Miller JMT and Shah S Probiotics in the management of inflammatory bowel disease and irritable bowel syndrome: a literature review (Abstracts of Communications). S111
Kneifel W, Bonaparte C and Casas I Utilisation of prebiotic carbohydrates by strains of *Lactobacillus reuteri* (Abstracts of Communications). S111
Kozakova H, Rehakova Z, Kolinska J and Tlaskalova H Effect of monoassociation with probiotic strain *Bifidobacterium bifidum* on enterocyte brush-border enzymes in gnotobiotic mice (Abstracts of Communications). S113
Lewis JDN, Greig M, Candy DCA, Shortt C, Holloway JA and Warner JO Development of an ELISA to detect *Lactobacillus casei* Shirota in human stool samples (Abstracts of Communications). S113
Pochard P, Grangette C, Gosset P, Tonnel A-B, Mercenier A and Pestel J Specific *in vitro* inhibition of the T-helper type 2 cytokine production by lactic acid bacteria: potential role in allergic diseases (Abstracts of Communications). S114
El-Nezami H, Haskard C, Salminen E, Mykkänen H, Ahokas J and Salminen S Lactic acid bacteria and bifidobacteria can reduce dietary exposure to aflatoxins (Abstracts of Communications). S115
Ramsay AG, Duncan SH, Scott KP, Stewart CS and Flint HJ Survival of butyrate-producing *Eubacterium* strains in a fermentor system inoculated with human faecal bacteria (Abstracts of Communications). S116
Scotti C, Sutherland JP, Varnam AH Quality of fermented probiotic milks in relation to claims concerning numbers and type of starter bacteria (Abstracts of Communications). S117
Snel H, Hoolwerf J, Wissink-Lettink M, Bovee-Oudenhoven I, van der Meer R and Herrewegh A Use of real-time polymerase chain reaction for microflora analysis (Abstracts of Communications). S117
Vinderola CG and Reinheimer JA Lactic acid starter and probiotic bacteria: a comparative study of probiotic characteristics and biological barrier resistance (Abstracts of Communications). S118
Vinderola CG, Mocchiutti P and Reinheimer JA Interactions among lactic acid starter and probiotic bacteria used for fermented dairy products (Abstracts of Communications). S119
Wiggins R, Millar MR, Soothill PW and Corfield AP Enzyme activity of the vaginal microflora and its effect on the secreted cervical mucus barrier (Abstracts of Communications). S119
Koenen ME, Jeurissen SHM and Boersma WJA Modulation of the immune response by probiotics in chicken (Abstracts of Communications). S120
Ohashi Y Lactic acid bacteria and cancer: epidemiological perspective (Abstracts of Communications). S121
Verschuren PM Foreword. S123
Verschuren PM Summary report – Functional foods: scientific and global perspectives. S125
Lucas J EU-funded research on functional foods. S131
Roberfroid MB Global view on functional foods: European perspectives. S133
Arai S Global view on functional foods: Asian perspectives. S139
Lajolo FM Functional foods: Latin American perspectives. S145
Milner JA Functional foods and health: a US perspective. S151
Schneeman BO Gastrointestinal physiology and functions. S159
Calder PC & Kew S The immune system: a target for functional foods? S165

Brouns F, van Nieuwenhoven M, Jeukendrup A & van Marken Lichtenbelt W Functional foods and food supplements for athletes: from myths to benefit claims substantiation through the study of selected biomarkers. S177
Dye L & Blundell J Functional foods: psychological and behavioural functions. S187
Hill JO & Peters JC Biomarkers and functional foods for obesity and diabetes. S213
Rafter JJ Scientific basis of biomarkers and benefits of functional foods for reduction of disease risk: cancer. S219
Weaver CM & Liebman M Biomarkers of bone health appropriate for evaluating functional foods designed to reduce risk of osteoporosis. S225
Weststrate JA, van Poppel G & Verschuren PM Functional foods, trends and future. S233
